1. There is an ammunition factory at Trepinki¹, near Glogow (Glogau - 0 52/B 77). The plant employs approximately 1,000 workers. New workers were arriving in groups of 20 to 30, mainly from Western Poland. These workers have been forcibly directed to work at this plant. By the end of 1952 it was expected that the plant would employ approximately 2,000.

2. To meet the needs of the additional workers, a sick bay and dispensary are under construction. Several new workshops are also being built.
